The place to be...together

SOCIAL TEAMBUILDING

A program like no other, focused on the experience of solidarity and the discovery of current and meaningful social projects, in an unusual and inspiring space in the north of Brussels.

WHAT WE PROPOSE ?

A tailor-made program for 50 people : a different way of meeting your colleagues, where language is solidarity and the context is social need.

A meaningful experience, the best way to create links among your team.

An out-of-the-box day, from 8:30 to 17:00 : a different though adapted space, social catering (breakfast and lunch) and surprising activities (in the house or in the neighbourhood).

A choice of 6 different afternoon team builders in collaboration with local engaged and engaging associations or social projects.

**A great and
constructive way to
support our project
too!**

“Thanks for the great experience.,
thanks for everything, keep making
the society a better place.”

What WE are and do ?

LABOLOBO is a creative venue dedicated to creativity, interpersonal exchange and collective well being.

Our non-profit association promotes solidarity between all generations in a urban context.

Through the **MA Project**, we organise meetings between generations based on **artistic and playful activities**, in retirement & care homes and schools of the same neighbourhood.

Our goals :

- Fight the elderly's isolation;
- Value their social role through transmission;
- Strengthen all social ties;
- and change our perception about ageing.

3. TECH for all

Intergenerational VR session with a group of elderly people part of Labolobo community.
Be surprised !

“VR is a simulated new frontier that can evoke a grandiosity recalling the Age of Exploration or the Wild West.”
– Jaron Lanier.

4. Reporters

Make the best **storytelling documentary of the day** : you'll get quality photo and shooting material and the help of professional film maker Julie De Clercq from **2nd to the right vzw**.

You'll follow the other groups and give us your perception...Creativity, team work, reactivity and lots of fun !

5. ROUF, 2nd hand

Rouf 2nd Hand, a socioprofessional integration pole, is a shop of objects and second-hand clothes.

The activities of "Rouf" range from the receipt of donations to sales, storage and finally, workshops sorting, laundry, ironing and sewing.

6. Co-design

Discover **Design With Sense** : a cooperative project for interior design and wood fabrication by architects, craftsmen and designers, convinced that the creative process must be human scaled and sustainable.

Their practices: local supplies, eco-design, re-use, sustainable materials, immersion, collective intelligence and **co-design**.

Design with sense puts the user at the heart of the creative process.

Get involved in the re-modelling of your office :
co-creation, participation and sustainable thinking
